- absolutists 88
- Adams, Scott 59
- addends 29
- algebra line 12
- Alice in Wonderland 59
- alternate angles 14
- angle subtended by a diameter 35-37, 47, 87
- animation, computer 34
- Apollonius 87
- applications of proof by induction 85, 86
- Archimedes 22, 87
- arcs 35
- area of a circle 35
- arithmetic series 29
- ASA ("angle, side, angle") 40
- assumption 63
- axiom 15, 87, 88
- barber paradox 63
- base of a logarithm 19
- binomial expansion 51, 72
- binomial theorem 86
- biographies, recommended resource 87
- bisection of a chord 45
- black swan 7
- bolts 14
- Boolean algebra 61
- bridges of Königsberg 10
- Brouwer fixed point theorem 34
- calculus 22, 63
- calendars 1
- Cardano, Gerolamo 87
- cards 50
- Carroll, Lewis 59
- CAS 30
- case studies in proof 64-71
- categorisation 63
- checklist for making a proof 73
- chessboard tiling 6
- chessboard dominoes 38
- chord 45, 46
- chord bisection 45
- circumference 17
- Clay Mathematics Institute 88
- closure under addition 25
- coefficients 51
- co-interior angles 41
- combinations 50
- complement 58
- complex numbers 86
- components of a vector 43
- composite number 55
- computation method for standard deviation 52
- computer algebra system 30
- computer animation 34
- computer proofs 88
- conclusion, logical 59
- conditional events 61
- congruent 38, 41, 42
- conics 87
- conjecture 4-6, 46
- conjunction 61
- consecutive odd numbers 5, 29
- consistent data 52
- construction of exact surds 55
- constructive proof 54
- constructivists 88
- contradiction, proof by 2, 25, 54, 66
- conversations about proof 1-3
- converse 25
- corresponding angles 37, 72
- cosec 2
- cot 21
- counter-example 7
- cricket 38
- cube dissection 88
- cubes 11
- cubes of digits 22
- cubic equation 27
- cubic, solution of 87
- cyclic quadrilateral 14
- dance 3
- de Moivre's Theorem 86
- de Morgan's Laws 58
- decimal, recurring 26
- decimal, terminating 26
- deduction 15-19, 61
- del Ferro, Scipione 87
- depressed cubic 87
- derivation 20
- detective puzzle 56
- diagonals 32
- diameter 35
- difference of squares 34
- difference squares 66
- differentiation 63, 88
- Dilbert 59
- Diophantus 87
- direct proof 15-19
- discontinuity 39
- disjunction 61
- disproof 7-9
- divisibility 5, 8, 12, 33, 83, 84
- Dogdson, Charles 59
- dominoes 28

dot product 47
 doubling 31
 Doyle, Arthur Conan 22
 Egyptian mathematics 87
 Elements, Euclid 87
 empty set 58
 enumeration, proof by 22-24
 equally-likely outcomes 51
 equilibrium 43
 Eratosthenes 87
 Euclid 26, 87, 88
 Eudoxus 87
 Euler, Leonhard 7, 88
 exhaustion, proof by 22-24
 existence proof 54-55
 expectation algebra 53
 expected value 53
 expert methods of proof 9-14
 exponential curve 39
 factorial 48
 factorisation 8, 12, 20, 70-71
 factorisation of factorials 48
 fallibilists 88
 false "proofs" 62
 faulty games 2
 Fermat numbers, Fermat "primes" 7, 20
 Fermat, Pierre de 7, 88
 Fermat's Last Theorem 88
 Fibonacci sequence 32
 fielding practice 38
 fifth powers 5
 fixed point theorem 34
 four-colour map theorem 88
 fractal geometry 88
 fraction division 72
 fractions 7
 Frege, Friedrich 88
 frequency table 53
 future of proof 88
 gambling 51
 Gauss, Karl 88
 genealogy 54
 generator for prime numbers 55
 generator formula for triangle numbers 70
 geometrical proof 40-47
 gnomon 29
 Gödel, Kurt 60, 88
 golden age of proof 87
 graphs 39
 Greek geometry 87
 grid puzzle 57
 halving 31
 hexominoes 11
 Hilbert numbers 18
 Hilbert, David 88
 Hilbert's Tenth Problem 55
 Hippasus 26
 history of proof 87-88
 Holmes, Sherlock 22
 identities, logarithmic 19
 identities, power reduction 20
 identities, trigonometric 21
 implication 61
 impossible tasks 24
 induction, proof by 28-33, 69, 85-86
 inequation 16
 inequations 85
 infinitude of primes 26, 87
 integers 15
 interesting numbers 60
 interior angles in a triangle 27
 intersection 58
 irrational numbers 25, 54
 isometries 36
 isosceles triangles 36
 iteration 60, 67
 jokes 3, 59, 62
 kite 42
 knight's move 10
 knight's tour 10
 Königsberg bridge problem 10
 largest number 63
 largest prime 26
 lawn, watering problem 37
 Leslie matrices 86
 Lewis Carroll 59
 LHS ("left hand side") 20
 liars 60
 like terms 15
 little book of proof 74-75
 logarithm 19, 54
 logic 60
 logic puzzles 23, 56-61
 logic symbols 58
 Mandelbrot, Benoit 88
 map theorem 88
 map, fixed point on 34
 matrices 86
 mean 52
 mental calculation 18
 Mersenne, Marin 88
 millennium problems 88
 modulus 5
 multiple of eight 33
 multiples 13
 multiples of nine 23
 multiplication by the reciprocal 72
 musical scale 87

natural numbers 8, 12
nCr 50
 nets 11
 networks 10
n-gon, diagonals of 32
 nominal quantity 52
 non-constructive proof 54-55
nPr 49
 odd numbers 5
 ordering and selection 50
 outcomes, equally-likely 51
 P versus NP Problem 88
 parabola 22
 paradoxes 62-63, 88
 parallelogram 43
 parity 10, 64
 Pascal, Blaise 51
 Pascal's triangle 51
 pentagram 37
 Perelman, Grigoriy 88
 perigon 36
 perimeter 17
 permutations 49, 60
 perpendicular vectors 47
 Pick's Rule 86
 Platonists 88
 playing cards 50
 Poincaré conjecture 88
 polygon 28
 postage stamps 31
 postulates 87
 power reduction identities 20
 powers 6, 39
 premise 59
 prime number generator 55
 prime pairs 93
 prime sieve 87
 primes 5, 7, 8, 17
 probability distribution table 51
 probability, proofs in 48-51
 product of consecutive even numbers 33
 projects in proof 80-86
 proof by contradiction 25, 54, 68
 proof by deduction 15-19
 proof by exhaustion 22, 87
 proof by induction 28-33, 69, 85-86
 proof theory 58
 proof, geometrical 40-47
 proposition 61
 propositional logic 58-61
 Pythagoras 18, 21, 26, 87
 Pythagoras' Theorem, proof of 34, 72
 QED ("*quod erat demonstrandum*") 15, 71
 quadratic expansion 13
 quality control 52
quod erat demonstrandum 15
 ratio 25
 rational numbers 25
 rational solution 27
 reciprocal 72
 recurring decimal 25, 26
reductio ad absurdum 61
 reflection 14
 regions in a circle 4
 regular polygons 23
 remainders 5
 rhombus 47
 RHS ("right hand side") 20
 RHS ("right-angle, hypotenuse, side") 40
 Riemann hypothesis 88
 right-angled triangle 18, 40
 rules of divisibility 83, 84
 Russell's paradox 67, 88
 SAS ("side, angle, side") 40
 scalar product 47
 scary teeth 35
 scrambled digits 64
 sec 21
 vectors 35
 selection and combinations 50
 selection and permutations 49
 semiregular tessellation 23
 sequences 24
 series 29-31
 setting out of a proof 15
 shapes, specifying 81
 shearing 34
 Sherlock Holmes 22
 simultaneous equation 39
 sinusoidal curve 38
 size of the Earth 87
 Smullyan, Raymond 60
 spreadsheet 5, 22, 52, 69-70
 squares 22
 squares on a spreadsheet 69
 squares, difference 66
 squaring 18
 SSS ("side, side, side") 40
 stamps 31
 standard deviation 52
 statistics, proofs in 52-53
 stellated pentagon 37
 structure of a proof 15, 76
 subset 58
 sum of combinations 51
 sum of consecutive numbers 5
 sum of consecutive odd numbers 5, 29
 sum of interior angles in a triangle 37

sums of squares 13, 52, 69, 70, 71
surd diagram 62
surds 25, 26, 55
swans 7
syllogisms 59
symbols of propositional logic 58
symmetrical play 2
symmetrical quadrilateral 42
symmetry 14, 35
table, making it stable 34
Tartaglia 87
tautology 60, 61
terminating decimal 26
tessellation 6, 23
Thales 87
Thales' theorem 36
The Elements, Euclid 87
theorem/theory 15
tiling 6
transposition errors 82
triangle 28
triangle numbers 69, 70
trilateral 28
trominoes 38
truth tables 60-61
truthtellers 60
twiddling bolts 14
two column format 41
uncertainty, theorems of 60
undecidability 60
union 58
unsolved conjectures 88
variability 53
variance 53
vector 43
Venn diagram 58, 59, 60
vertices 28
visual proofs 14-39
visualisation 9-11, 14, 34-39
volume of displacement 87
watering a lawn 37
Wiles, Andrew 88
zero raised to the power of zero 39
